

Make your best shipping decision of the year. Subscribe to Kuebix and immediately start saving your company time and money! Kuebix is a cloud-based TMS designed to meet the needs of every business. Companies can get started with Kuebix for as little as \$99/month with no long-term commitment. As all businesses are different, Kuebix allows you to add more robust functionality through the addition of Premier Apps and Integrations, while only paying for what you need. Most small- to medium-sized businesses will realize anywhere from \$500–\$5,500 in bottom line savings per month.

Which of these examples is most like your company?
Check out how Kuebix is helping them save a ton of money each month.

EXAMPLE

“3PL Dependent”

Transportation Process:

Company is using a 3PL and paying an upcharge on all of their shipments.

The Kuebix Solution:

Kuebix customers save an average of 10–15% per shipment with direct carrier rates.

Do the Math:

$\$500,000$ (annual freight spend) \times 13% = $\$65,000$ annual savings

Bottom-Line Savings:

A typical midsize shipper saves $\$5,500$ per month with Kuebix.

“The Manual Doer”

EXAMPLE

Transportation Process:

Company is doing all shipment-related activities manually.

The Kuebix Solution:

Kuebix customers save an average of 30 minutes on every shipment by automating rate comparison, document creation, scheduling, tracking & tracing, and freight pay & audit. Additionally, Kuebix’s audit function saves the average shipper 5% on their annual shipping spend by identifying carrier invoice errors.

Do the Math:

30 minutes \times 5 shipments per day = 2.5 hours \times $\$16$ per hour (average clerk hourly rate) = $\$40$ per day

$\$500,000$ (annual freight spend) \times 5% = $\$25,000$ annual savings

Bottom-Line Savings:

With Kuebix, a company averaging 25 shipments per week will save $\$800$ – $\$3,000$ per month in worker pay and carrier invoice adjustments.

EXAMPLE

“The Outsourcer”

Transportation Process:

Company is outsourcing freight pay and freight audit.

The Kuebix Solution:

Kuebix’s intuitive financial tools allow shippers to easily manage freight pay and freight audit functions in-house.

Do the Math:

\$500 (average monthly fee charged by a freight pay and audit company)

Bottom-Line Savings:

A company that is outsourcing freight pay and audit will realize a savings of approximately \$500 per month by using Kuebix.

And the savings don’t stop there.

If your company is using a value-added network (VAN) for EDI, compare Kuebix Integrations starting at \$99 per month with a typical VAN EDI service at \$2,000+ per month.

Kuebix’s spot quote function allows shippers to realize an average savings of 22–25% on qualified shipments.

Scheduling and managing freight for your customers can be costly. Pass on your administrative handling costs to your customers through Kuebix Pre-Pay and Add functionality. Kuebix will calculate an upcharge to your customer based on your carrier rates.

Overall efficiencies gained = \$\$\$ with Kuebix’s integrated TMS/CRM:

- Tracking & Tracing
- Reporting
- Managing with Dashboards
- Benchmarking

The real value of this system (beyond the time and money savings) is to make you a company hero, with your business segment running like a lean, six-sigma black belt. In other words, the CEO or CFO quickly realizes that YOU have your department under control and that others can learn from you!

Kuebix will help you become a supply chain hero.

- Save your company time and money.
- Pay only for what you use.
- Manage the supply chain in one place from any device.
- Access information at all times.
- Connect with your supply chain stakeholders via Kuebix CRM.
